

Human Concern International

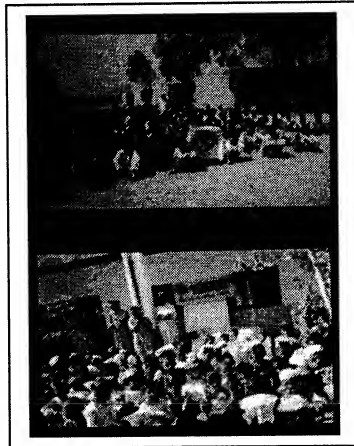

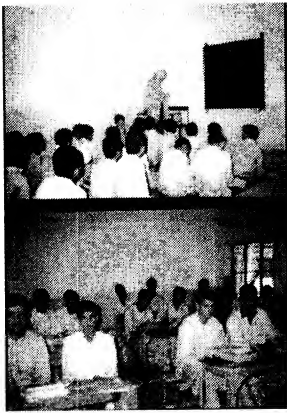

Pakistan/Afghanistan

Activities for the fiscal year 2003

FIELD OF ACTIVITIES

In Pakistan for Refugees:

Education:

HCI Pakistan is operating an educational complex “Hope Village” since 1984 for Afghan children. Hope Village School is an upper middle School, providing Schooling for boys up to 9th class. This project is totally funded by HCI. Head office is providing funds through child sponsorship program. A total of 393 students have regularly attended their classes and educational activities being held according to the plan.

Purpose of the project is to provide basic education to poor Afghan children and especially to orphan those have lost their parents in long Afghan war.

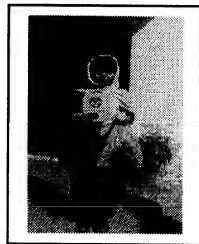

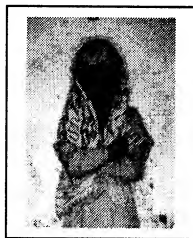

The children are provided all the educational facilities free. i.e.. Uniforms, Schoolbooks, and stationary free of cost to the students who are coming from the camp.

100 children were living in School Hostel; the hostel children are provided free food, clothing, books, stationeries and other daily use items.

The students are equally participating in co-educational activities, such as essay writing competition, story writing and other than educational activities such as sports ...ie.. Football, cricket, volleyball.

HCI Hope Village School maintained good educational standard. The students of our School when they go to other Schools or colleges, they always secure good marks.

Sponsoring Afghan girls living in urban area for their education

HCI is currently sponsoring 8 Afghan girls for their education in primary Schools education, those are studying in private public Schools, and HCI is helping these children with uniforms, School fee, books and stationeries.

These little girls and their families are very happy with HCI assistance, there is no free School in the urban area, only the camps have Schools run by Afghan Commissioner Education cell, but the education standard is not satisfactory in those Schools. The families being from Kabul city, they are concern about their children future. These children are active, intelligent and always secure good marks in their respective classes.

Vocational Training Centre (VTC):

Vocational training is a regular HCI program for Afghan refugees, vocational training provided to 85 young Afghan children who are living in School hostel, the children are being trained in tailoring, carpentry and carpet weaving after the School hours. The training classes are for two hours daily. Program aims at "providing technical skills by virtue of that technical knowledge they can have an in-come generation opportunities" in future. The children are given the choice to select the field of their choice, but younger children were selected for tailoring and carpet weaving.

Due to this vocational training program some of the children have become good tailor and carpet makers.

Mother and Child Health (MCH) clinic

Hope village mother and child health care clinic works 5 days a week basis, and served the females and children of Akora camp and children from Hope village school, for the last year approximately 7651 patients visited the clinic and benefited form the services.

The clinic is staff with MD female Doctor and male nurse/dispenser.

Cases treated in the clinic were reported as follows:-

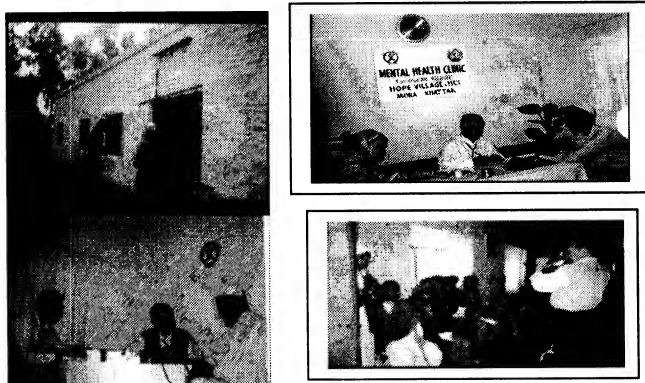

- 1) Respiratory tract infection

- 2) Urinary tract infection
- 3) Skin infection
- 4) Gastro enteritis
- 5) Gynae /Obs
- 6) Others

MCH clinic is a free clinic for the refugee; patients were assisted with free examination, consultation and medicines available in the clinic pharmacy.

Due to limitation of funds, daily an average of 30 patients from the camps and School were benefited from MCH clinic services, serious patients were referred to other big hospitals in Peshawar.

Mental Health and Counseling centre (MHC) centre:

From April 2002 the Mental health & Counseling centre is in operation, we have engaged a specialist Psychiatrist and a Psychologist. The Psychiatrist deals on the mental cases with thoroughly examination; prescription and follow up while the Psychologist responsible for counseling, with individual and group therapy. In the initial stage it work was a day a week basis, In August 2002, looking to the demand of camps people and the patients, the donors (IMET & University of Missouri) agreed to increase the working days 5 days a week, from August Mental health and counseling centre is functioning regularly with a Psychiatrist, Social worker/Psychologist, a pharmacist, a record keeper and an OPD operator.

This clinic is very much beneficial for the refugee and day by day the patient's numbers are increasing.

- ii) Female : 1634
- iii) Children : 367

B- AGE WISE LIST:

S.#	Age	Number of patient
1.	1 to 17	423
2.	18 to 40	1221
3.	41 to 65	1013
4.	65 & above	367

C - MANAGEMENT OF PATIENTS:

- i) DRUGS :
 - i. TRICYCLIC ANTI-DEPRESSANTS
 - ii. TYPICAL NEUROLEPTICS
 - iii. BETA BLOCKERS
 - iv. ANTI-CONVULSANTS
- ii) PSYCHOTHERAPY:
 - i. INDIVIDUAL THERAPY
 - ii. GROUP THERAPY

D- RESPONSE RATE:

- i) GOOD RESPONSE : 2569 PATIENTS (85%)
- ii) PARTIAL RESPONSE : 391 PATIENTS (13%)
- iii) NO RESPONSE : 64 PATIENTS (02%)

E- PATIENTS FOLLOW-UP RATE:

- i) GOOD FOLLOW-UP(10 or more than 10 follow-up visits): 5635
- ii) POOR FOLLOW-UP(3 to 9 follow-up visits): 701
- iii) NO FOLLOW-UP(1 or 2 follow-up visits) : 75

F- PATIENT DAILY VISITS:

i)	TOTAL NO OF PATIENT DAILY EXAMIND :	30
ii)	NO OF NEW Patient's :	10
iii)	NO OF FOLLOW-UP Patient's :	20

Skill Development Program for Afghan Females

Human Concern International with having in mind to assist the vulnerable groups to assist them to become self dependent, has designed a skill development program. For the last three years we are operating Skill development project female especially for widows and poor women from the camp. The training comprises of following trades:

- Tailoring
- Carpet Weaving
- Embroidery/Knitting

During the year 90 females have completed training in tailoring, carpet weaving and embroidery and knitting. After completion of the course, certificates were distributed and tool kits were given to the trainees to establish their own small business. HCI vocational centre team regularly monitors their work and helped them in marking their products and finding works for them on wages basis.

A new batch of 45 trainees is learning the skill in Carpet weaving, Tailoring and Embroider/knitting.

Since the overall objective of the project was to enable the vulnerable groups of the society –orphans, widows & needy- to stand on their own feet and have regular income. The training activities have been designed to help the most vulnerable segment of Afghan refugee's population. These activities had provided the opportunity to widows and orphans & needy male and females to learn new skills and establish their own businesses or income generation activities.

We have also assisted the skilled females for their finished goods for marketing and encouraged them to practice the skill and earn to help their family and live an honorable life.

Higher Education support program

HCI was supporting two Afghan intelligent students in professional colleges; (one male and one female); female was in Afghan medical college in Peshawar and the male student in Texela Engineer College (Pakistan) for their professional education. Both the students were doing well, were very happy and paying full attention towards their studies. But last December the donor has stopped the sponsorship fund due to unknown reason. The girls student of Afghan Medical College went to Kabul and she has no contact with our office, but the male student of Taxella Engineering College has approached the office many times, he is disappointed due to stoppage of funds. Although he is an intelligent student, but he faced much difficulties.

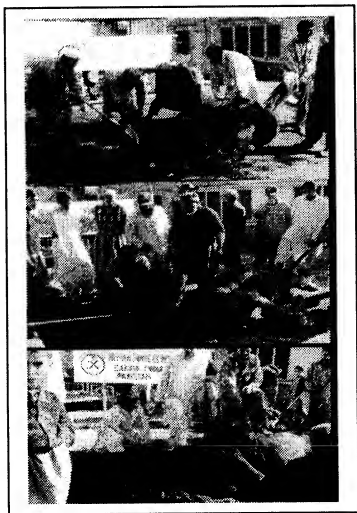

Relief program for refugees in Ramadan.

The following relief assistance distributions were done under Ramadan program-

Distributed rice, beans, sugar, and cooking oil 5 kg each to 2,000 families in Akora Khattak refugee's camp and 800 Afghan new refugee families in urban area in Peshawar.

Sacrificed meat distribution for Afghan refugee.

Under our Zabiha program, HCI performed Zabiha. For Afghan Refugees in Peshawar and sacrificed meats were packed and distributed in the following area:-

Akora Khattak refugees, In urban area of Peshawar, in Shalman refugees camp

Beneficiaries were

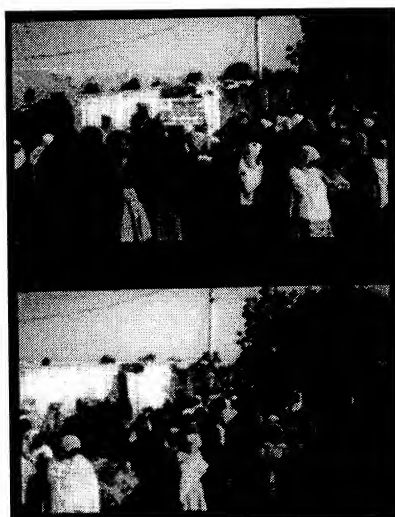

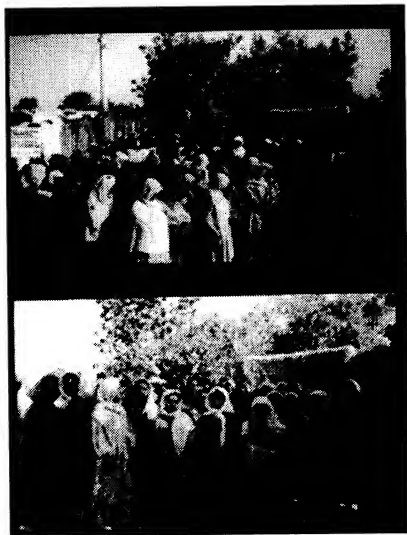

= 1690 families

IN AFGHANISTAN

Education:

Farm Hada Girl Primary School

HCI Girls School in Farm Hada Jalalabad

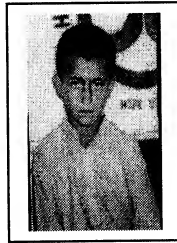

This School is providing Schooling facilities to 220 girls children up to class 7th in Farm Hada, Jalalabad. Most of the children are from the Farm Hada displace camp and the majority of the children are orphan. School is staff with 7 teachers, this School is totally run by HCI funding, we have provided School books, stationary, other School requirements and cloths free to the children.

Farm Hada School also has provided skill training in traditional Afghan embroidery to the Afghan girls after School hours.

The same School is also operating as Hifiz ul-Quran markaz and Nazara Quran for the girls in the second time. 76 girls are in the after noon classes.

Child Sponsorship for education in different area of Afghanistan

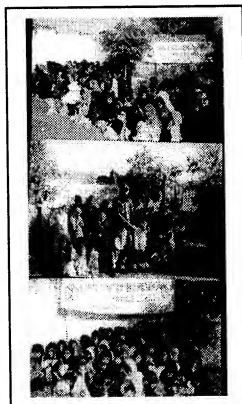

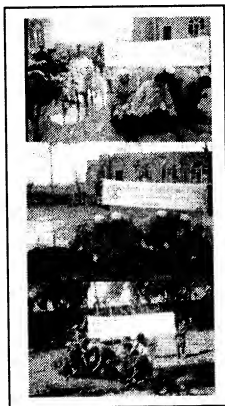

Under child sponsorship program HCI is sponsoring 60 children in Jalalabad, Laghaman, and Logar for their education. The children who are sponsored by this program are studying in different schools in their native villages.
